SUPPLEMENTARY INFORMATION:

Title: Voluntary Recalls of Meat and Poultry Products.

OMB Control Number: 0583-0135

Expiration Date: 07/31/2012

Type of Request: Revision of an approved information collection.

Abstract: FSIS, by delegation (7 CFR 2.18, 2.53), exercises the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, et seq.) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, et seq.). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting a revision of an approved information collection addressing paperwork requirements regarding the Agency's voluntary recalls from commerce of meat and poultry products to increase the estimate of the total burden hours because the number of recalls has increased. The Agency also is requesting an extension of the approval for this information collection because it will expire July 31, 2012. Although FSIS is responsible for the inspection of egg products under the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, et seq.), the Food and Drug Administration handles the recalls of egg products under a Memorandum of Understanding with FSIS.

A firm that has produced or imported meat or poultry product that is adulterated or misbranded and is being distributed in commerce, may voluntarily recall the product in question. When there is a recall, FSIS asks that the recalling firm (e.g., a manufacturer, distributor, or importer of record)

provide the Agency with some basic information, including the identity of the recalled product, the reason for the recall, and information about the distributors and retail consignees to whom the product was actually shipped. Under the FMIA, firms are required to keep such records that fully and correctly disclose all transactions in their business (21 U.S.C. 642). Under the PPIA, firms are required to keep such records as are properly necessary for the effective enforcement of the PPIA (21 U.S.C. 460(b)).

When a firm voluntarily recalls a product, FSIS conducts recall effectiveness checks. In conducting recall effectiveness checks, if the recall is to the retail or consumer level, the Agency contacts the distributors and actual retail consignees to ensure that they were notified of the recall, to verify the amount of product they received, and to confirm that they are removing the product from commerce and returning it to the recalling firm or otherwise disposing of the product.

FSIS has made the following estimates based upon an information collection assessment.

Estimate of Burden: FSIS estimates that it will take respondents an average of approximately 1.1 hours to collect and make this information available to FSIS.

Respondents: Official establishments, importers of record, and retail consignees.

Estimated Number of Respondents: 6,087.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 6,740 hours.

Copies of this information collection assessment can be obtained from John O'Connell, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 1400 Independence Ave., SW., Room 6065 South Building, Washington, DC 20250-3700; (202) 720-0345.

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in

the request for OMB approval. All comments will also become a matter of public record.
